Profile

I have hands-on experience building backend systems using Node.js, managing data with MySQL, and maintaining organization with Git. I focus on writing clean, scalable code and love working on real-life projects that solve real problems. I enjoy being part of a team where we build and learn together.

Projects

05/2025 – 07/2025

Paste app using React

Developed a Pastebin-style web app using React, Node.js, and Express.js, enabling users to create, save, and share code snippets in real-time.

10/2024 – 05/2025

Personal Portfolio Website

Developed a fully responsive personal portfolio website from scratch using HTML, CSS, and JavaScript. Created to demonstrate front-end design skills and user-friendly interfaces.
